Salt Extinguished Chimney Fire. A chimney in the residence of Mrs. Emily J. Ross of Chaplin caught fire Sunday while the members of the family were at charch. The fire was discovered by the hired man who climbed to the roog and after a hard tussle got the flames under control by the application of salt. The supply of water in the vicinity is very scant. It is believed that the high wind was responsible for the fire, which did not do any serious damage.

A Pointless and Sorry Joke Delays Trainmen-Secretary C. D. Hine Con-fers With School Boards-Death of Frank Birchfield-Tin Shower.

The effort of some one to do something funny Saturday afternoon resulted in not only causing a scare to the crew and passengers of the northbound train due to leave Danielson at 3.02, but was responsible for persons lesing the west bound express at Putnam because of the delay.

The train was a few minutes late when it swung around the sharp curve a mile below here, running of a speed by down as soon as it is officially released.

when it swing around the sharp curve a mile below here, running ot a speed too fast to permit the engineer to stop before running over a body that had had apparently been cut to pieces by another train, as the legs were inside the rails and the torso outside. When the startled crew and passengers got back to where the crushed mass of matter lay on the tracks they discovered a scarecrow, probably taken from some nearby field, instead of a mangled human being. The disgust was much greater than the joke. My, how the winds must sough through the tunnels in the reinforced concrete cranium of the fellow who thought it out.
